ANNOUNCEMENT.

In presenting this Administrator's Sale Catalogue, of Woodberry Shorthorns, the property of C. L. Gerlaugh, deceased, I feel confident that it contains animals of such individual merit and pedigree as to highly commend them to the breeders of Shorthorn cattle.

The thirty-five head catalogued represent the best Marr and J. Deane Willis cattle that my father imported. The home bred cattle are sired by the best imported bulls and out of the cows which he always refused to price; as he wished to retain them as matrons in the herd.

The offering will represent the merit that has characterized former Sales from Woodberry herd.

Breeders needing herd bulls will find it to their advantage to attend this sale and examine the offering. Attention is also directed to the offering of females; because they are of such merit as to improve the breed.

TERMS:—Cash or on approved note for ninety days at six per cent from date. All parties desiring time will bring a letter of credit from their bank.

Each lot will be sold separately to the highest bidder, without reserve, if more than one bid is made for same.

The auctioneer selling will settle any dispute as to a bid; and each lot sold will be at the purchaser's risk as soon as bid off; but will not be delivered until settlement has been made for same. And defects will be made known on day of sale; but no guarantee of their future usefulness will be made. Certified pedigrees will be furnished with each animal sold.

Osborne is located between Dayton and Springfield on the Big Four and N. Y. P. & O. Railroads. Dayton, Springfield & Urbana Electric Railroad passes within three-quarters of a mile of farm. (See Time Table on second cover page.)

First-class accommodations may be found at the Arcade Hotel, Springfield, and at the Beckel or Phillips House, Dayton.

Breeding list will be furnished on day of sale.

The Roan Lady family is much valued at Uppermill; they are heavy milkers and breed well, producing such animals as Rising Star and Royal Ury.

Roan Lady 14th is dam of Mr. Cameron, Balnakyle's fine young bull Fortune, one of the highest priced Uppermill calves in 1896, and she is a fine old cow.

CAPTAIN OF THE GUARD, bred by the late Amos Cruickshank at Sittyton, was sired by Commodore (54118), one of the last great bulls produced by that distinguished breeder before the sale of his herd. His dam was Christmas Carol by Cumberland (46144); second dam Cornucopia by Grand Vizier (34086); third dam Courtesy by Scotland's Pride (25100); fourth dam Cicely by Lancaster Royal (18167). This cow Ciceley, of the Cruickshank herd, had the same maternal derivation as Mr. Marr's Alexandrinas, both tracing to Grant Duff's Kilmeny by The Peer (5455).

WILLIAM OF ORANGE (50694); bred at Sittyton from the Orange Blossom family, his dam being Orange Blossom 21st, by Cæsar Augustus (55704), and his sire Cruickshank's famous bull, Roan Gauntlet (35284), one of the best getters ever used at Sittyton. William of Orange was bought by Mr. Marr when a calf. He has done excellent service at Uppermill, and with the exception of Heir of Englishman (24122), he is second to no bull as a getter that was ever used in the herd. Many splendid animals sired by William of Orange have been purchased by some of the principal breeders in England, Scotland, and America.

ATHABASCA (47359), bred at Sittyton; sire Pride of the Isles (35073), dam Azalea by Cæsar Augustus (25704), 2d d. Anemone by Forth (17866). This bull was used at Uppermill for six years with marked success, the young bulls after him being very popular at the Aberdeen Bull Sales. He was ultimately sold to Mr. Fryer, Smelt House, Durham, in whose hands he took a good position at several of the English shows.

VISCOUNT OF ANOKA 125081 needs no introduction to the American public as a show and breeding bull. His winnings of 1898, 1899 and 1900 were the sensations of those years. The herd he headed the latter two was undefeated in the two years either in their breed or over all breeds, having in that time won 12 first prizes in the Shorthorns and 4 first prizes over all breeds without a break, something never equaled in the history of the shows. His produce has been shown only in the last two years, but have demonstrated the fact that as a breeding bull he has no equal.

BAPTON CONQUEROR 157659, roan, bred by J. Deane Willis, Bapton Manor, Wilts, Eng., sire Red Robin 157376, out of Cyclemen by Adolphus 157657; Cowslip by Baron Bridekirk 3d 157660; Citron by Gondolier 98287; Cardamine by Cumberland 50626. Bapton Conqueror was first pick of the bull calves at Bapton 1898, used one season at Collynie and sold at a very high price to South America.

WANDERER 140614, sired by Commodore 96849, dam Godiva by Cumberland 50626, granddam Gilliver by Roan Gauntlet, is a grand old bull, excellent rib, fine level back, smooth in shoulder, extra good in hind quarter, and finishes well at tail head. I considered him one of the very best bulls in Scotland. His dam, Godiva, was one of the best cows at Sittyton and dam of several of Mr. Cruickshank's stock bulls. He is also sire of Scottish Champion, the highest priced bull calf of 1898, either in Great Britain or America, bringing \$1,650 at public auction.

WILLIAM OF ORANGE 95736, bred at Sittyton, from the Orange Blossom family, his dam being Orange Blossom 21st by Cæsar Augustus (25704) and his sire Cruickshank's famous bull, Roan Gauntlet 45276, one of the best getters ever used at Sittyton. William of Orange was bought by Mr. Marr when a calf. He has done excellent service at Uppermill, and with the exception of Heir of Englishman 21595, he is second to no bull as a getter that was ever used in the herd. Many splendid animals sired by William of Orange have been purchased by some of the principal breeders both in England, Scotland and America.

VISCOUNT OF ANOKA 125081 needs no introduction to the American public as a show and breeding bull. His winnings of 1898, 1899 and 1900 were the sensations of those years. The herd he headed the latter two was undefeated in the two years either in their breed or over all breeds, having in that time won 12 first prizes in the Shorthorns and 4 first prizes over all breeds without a break, something never equaled in the history of the shows. His produce have been shown only in the last two years, but have demonstrated the fact that as a breeding bull he has no equal living.

SILVER PLATE 145554 belongs to the well-known Invequhomery Rosewood family. He has won many prizes for Mr. Deane Willis. He was got by the celebrated sire of Smithfield winners, Waverly (68072), out of Rosewood 67th by Wellington (68076). Silver Plate was the highest priced of Mr. Bruce's bull calves and his grand dam was the highest priced cow at the Inverquhomery Dispersion Sale.

BAPTON JAVELIN (68176), bred by J. Deane Willis and used by him, was the result of breeding the beautiful Cruickshank heifer Jacinth to the half Booth bull Prince Stephen (64603). This latter bull was the result of crossing the pure Booth bull, King Stephen, hired at a big price for the purpose, with the Cruickshank heifer Cineraria by Commodore. King Stephen (46559) was a grand specimen of what the best Booth cattle were, and his use in the Willis herd to a limited extent proved the right of the breeder to the name of a builder and improver, for good has resulted in producing such sires as Bapton Javelin and others in the herd.

ROAN ROBIN (57992), a richly bred Brawith Bud bull bred at Sittyton, and used freely by Mr. Duthie, was got by Cumberland (46144), out of Glowworm by Roan Gauntlet (35284), g. d. Garnish by Royal Duke of Gloster (29864). It is unnecessary to make any comments upon this pedigree as the Brawith Buds were one of Mr. Cruickshank's favorite families and the sires were some of the best he ever used.
